**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1)  Responsive to communication(s) filed on \_\_\_\_\_.
- 2a)  This action is FINAL.                            2b)  This action is non-final.
- 3)  Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## FINAL ACTION

### *Response to Arguments*

1. Applicant's arguments filed on 12/30/03 have been fully considered but they are not persuasive. Applicant's arguments regarding whether Budd'108 teaches a three-dimensional deformable model have been considered. Applicant's attention is again invited to Figure 7 which clearly indicates a deformable model of the heart and which is referred to as a dynamic model of the heart depicting the changing motion of the heart (see col. 7, lines 15-55). The two representations of Figure 7 clearly indicate a dynamic three-dimensional model or a deformable three dimensional model. Also see col. 8, lines 45-59, wherein the model of Figure 7 is referred to as a "three dimensional model of the heart". The Examiner's position is that the reference teaches all the elements of the current invention so as to constitute clear anticipation. It is the Applicant's burden to indicate why this reference does not clearly anticipate. The single reference as to why the current reference does not anticipate, namely that there is no teaching of a three dimensional deformable model has been addressed herein and thereby this action is made final.

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. Claims 1-60 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Budd et al. '108, of record.

Budd et al. '108 teach all the features of the instant invention including a deforming model as illustrated in Figure 7, see col. 7, lines 15-55. Applicant's attention is again invited to Figure 7 which clearly indicates a deformable model of the heart and which is referred to as a dynamic model of the heart depicting the changing motion of the heart (see col. 7, lines 15-55). The two representations of Figure 7 clearly indicate a dynamic three-dimensional model or a deformable three dimensional model. Also see col. 8, lines 45-59, wherein the model of Figure 7 is referred to as a "three dimensional model of the heart".

### *Conclusion*

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
